SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing secure RESTful APIs, implementing authentication systems, and delivering responsive user experiences. Strong foundation in Data Structures and Algorithms, Git, and modern software engineering practices. Passionate about building reliable software, solving real-world problems, and continuously learning emerging technologies.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

2023 – Present

Rayat Bahra Professional University

- CGPA: 6.7/10

TECHNICAL SKILL

Programming Languages

JavaScript, Python, C++

Backend

Node.js, Express.js

Tools

Git, GitHub, Vercel, Render

Frontend

HTML5, CSS3, JavaScript (ES6+), Responsive Web Design

Database

MongoDB, MySQL

Technologies

REST APIs, JSON, Authentication & Authorization

PROJECTS

Code Ninja Academy

React.js | Node.js | Express.js | MongoDB | JWT

- Engineered a full-stack learning platform featuring course enrollment, quizzes, and progress tracking.
- Integrated JWT-based authentication and role-based access control to secure user access.
- Designed RESTful APIs for managing courses, assessments, and student activities.
- Launched the application on Render and Vercel with a production-ready deployment workflow.

Dev Pilot AI

React.js | Node.js | Express.js | MongoDB | GitHub OAuth

- Crafted an AI-powered developer platform focused on improving coding productivity.
- Connected GitHub OAuth and JWT authentication to provide secure user access.
- Added AI-assisted code review, deployment analytics, and project insights to streamline development workflows.
- Released the application using Render and Vercel with a scalable cloud infrastructure.

School Management System

React.js | Node.js | Express.js | MongoDB | GitHub OAuth

- Delivered a web-based management system for handling students, teachers, attendance, and academic records.
- Established secure authentication with role-based permissions for different user roles.
- Organized backend services through RESTful APIs and optimized data storage with MongoDB.
- Enhanced usability with a responsive interface for everyday academic operations.

CERTIFICATES

- IBM Artificial Intelligence Analyst
- Full Stack Development Certification
